

## **ASCENS Spring School 2015**

March 23-27

Lucca, Italy

The school is organized by ASCENS members. The program will focus on the techniques and tools developed in the ASCENS project for engineering collective autonomic systems. In particular, on theoretical and pragmatic results achieved within the context of the case studies in the swarm robotics, cloud computing and e-Mobility areas. [More](#) ...

## **AWASS Summer School 2013**

June 23-28

Lucca, Italy

The 2nd Awareness Summer School was organized by the AWARENESS coordination action that supported the ASCENS and six other FET proactive projects. The school program focused

on theoretical, practical, and technological issues related to autonomic self-awareness. ASCENS members presented the results achieved so far in the context of engineering ensembles. [More](#) ...

## **AWASS Summer School 2012**

June 10-16

Edinburgh, United Kingdom

The 1st Awareness Summer School was organized by the AWARENESS coordination action that supported the ASCENS and six other FET proactive projects. The main topics were self-organizing and self-adaptive systems, pervasive computing technologies and security and socio/economic aspects of autonomic computing. The ASCENS presentations focused on self-assembling strategies. [More](#) ...
